Wires & Cables - Performance Redefined

www.kshinternational.com

THE COMPANY

KSH International Private Limited founded in 1981, is the leading manufacturer of Bare and Insulated Rectangular & Round Winding wires and Transposed Cables in India.

KSH has 3 manufacturing plants near Mumbai and Pune. Product quality, delivery, innovation and customer service have made KSH a preferred supplier to major Indian and Global OEMs.

KSH provides customized solutions and manufactures products as per customers' specific requirements. Customer First and Product quality is the core of KSH's policy.

KSH is certified for ISO 9001, ISO 14001 & OHSAS 18001 systems. The ability to adapt to a rapidly changing economic and global environment is a result of the quality policy and personnel.

Regular training to carry out precision work, innovation and continual improvement in products is now the way of life at KSH. Equipped with latest technology, Rod Breakdown Machines, Enameling Machines and Testing equipments, KSH is at the forefront of meeting customer requirements and also delighting them.

PRODUCT RANGE

Product	Material	Sizes	Grade	Thermal Class	Type of Enamel Coating	Specification Standards
Enameled Round Wires	Copper	0.20 mm to 1.60 mm	Grade 1, 2 & 3 as per IS / IEC or Single, Heavy & Triple as per NEMA	105°C to 220°C +	Polyvinyl Acetal / Formal, Polyester, Modified Polyester, Polyesterimide, Polyamide Imide, Polyimide, Nylon, Polyurethane etc	IS 13730 / IEC 60317 / NEMA MW / JIS C3202 / DIN / Relevant National / International / Customized stds
	Aluminium	0.30 mm to 2.00 mm				
Enameled Rectangular Wires	Copper	Width: 3.0 to 14.5 mm Thickness: 0.80 to 5.0 mm	Grade as per IEC or customized coating thickness	120°C to 200°C	Polyvinyl Acetal / Formal, Polyester, Polyesterimide, Polyamide imide etc	IS 13730 / IEC 60317 / Relevant National / International / Customized stds
